

COUNTER ASININE DISCIPLES

Possessing or pursuing acts of bona-fide are of the highest priority. Apply principles of unfeigned to homosapien sapiens' nature. We are all deformed spheres of matter with dents and lumps that depict our traits and faults.

Being gay is not a personality.
Your loathsome acts of nudity attract the hate you secretly and outwardly crave.
Ferret out one's real identity. Your "community" is made up of quasi-lustful oafs.
Toying with those of questioning sexual orientation and pursuing the act of coquetry is profane and erroneous.
Bind together and form an actual community.

Back to the old times. You will not be offended by everything. Mistakes are common and if you want to be esteemed you must accept them. This applies to your gender.

Hertero-NO, the LGBTQ community is not inclusive because they do not include everyone. Your allies are just as crucial and vital to your aims.

Intelligence can be measured. Let us not pretend that we are all sharp. There are two sides. Innovators and Inventors.
Innovators. Seek interest into the world and your work. Pursue, Achieve, Ameliorate.
Sheep. Anyone could be fed data and memorize then vomit it onto a page. The more time that you study and acquire that information for, the stupider you are. Plentiful, Slow minded, and futile.

To the future pupils who seek to ameliorate. Students who cannot stand up for their rights deserve to have them revoked. If one believes something is unjust stand up and protest. Don't attack a problem if you cannot even contribute to a solution. If one is not provoking change *onee* is creating it. A revival of the renaissance universidades is imperative.

Morals and Values. If one and *onee* agrees upon an act, preform it. Your excuses are not justifications and do not suffice. Your failure to comply with commands to complete your task shall not hinder anyone else. Confidence is charming and alluring.

Equal distribution of honour and prominence for all the all the fields of work. They co-exist symbiotically, and function intertwined. The layers of connections act as Saturn's rings surrounding us.

Developing your own aesthetic and perforated aura is key to figuring out one's identity. Rather than a perpetual and persistent surge that is piecemeal. The spectrum of time to attain this principle is bent much like Dali's work.

Down with modern taboo socialization directives. Delaying a response or message to reciprocate a negative sentiment proves how you are cynical, conniving and lack assuredness. The premise of who remunerates by no means will correspond with gender. Bluntness and forthright relations form bonds for longevity.

Gravitas to sentiments. Experience the vehemence of them as you embrace them. Exterior societal reactions shall not phase you. Our greatest faults with time educe our ripened personality and character.

If the moon and the stars tyrannize your decisions than *onee* is a misaligned constellation. May Dolos himself patter the dust of lunacy in the form of a crown to adorn you with.

Religion is a cult if everyone is not welcome. The use of ancient doctrine to employ the repudiating of modern rights is a form of dictatorship amongst your followers. It is to belittle and misinform your following in the forms of sexism, racism, and xenophobia. By ignoring the quasi-reality, you have engulfed yourselves in, you only grow frailer and more grow distant from the real world. The liminal bubble will surely pop.
